

2021 Junior & Senior Minimoto Regulations

GENERAL CLASSIFICATION OF A MINIMOTO

Wheelbase: 680mm - Max Length: 920mm - Max Seat Height: 395mm - Max Total Height: 540mm Max
Wheel Size: 6.5 inches. Efficient fully working independently operated Front and Rear Brakes Only fuel
purchased from a roadside public fuel station with no additives other than 2T oil is permitted

Restrictors

AC40 classes, Rookie and PRO must use a Minimoto Racing (M4 Karting) restrictor plate of the regulated size for the class to be fitted between the cylinder and the exhaust. Restrictor plates are £5 from M4 Minimoto and are available at the meetings. All restrictor plates must then be security sealed to the bike with a FAB-Racing seal, this needs to be done before qualifying starts and costs £3.50.

The 2021 FAB Racing Rookies Cup Riders from 6 to 13 years

Special note: Riders 5 years and 6 months of age that have completed training to a sufficient level at the FAB-Racing / Minimoto Racing Academy will be able to be entered for pre-event practice at a FAB-Racing race event. During those pre-event practice sessions FAB-Racing will assess their ability to take part in the Rookie class of the actual event. If then allowed to take part assessment will continue during the event and, if any concerns are raised, they will not be permitted to continue for their and others safety.

For their first events, including Friday practice, all new Rookies will be required to wear a Hi-Viz bib. Rookie riders are not permitted to enter any additional class.

Following a continued agreement with BLATA and Minimoto Racing to supply complete machines, OR separate motors and exhausts for those wishing to use a different chassis, at subsidised prices the following will be the 2021 machine regulations:

All competitors will be required to use the BLATA RM10 Motor and Exhaust with 10mm Minimoto Racing exhaust restrictor fitted and sealed. The chassis does not have to be BLATA.

Maximum carb size 15mm. Spark plugs MUST be resistor – Eg. NGK BR9EG, BR10EIX etc, the R = Resistor.

Competitors will be free to move to the AC40 Pro Class by choice at any time during the 2021 racing season. This change will be overseen by FAB Racing to ensure a rider changing classes is at a sufficient level to do so.

If a new rider with previous experience wishes to enter this class FAB-Racing will decide if they are Rookie level during practice, or should move to the AC40 PRO class.

Riders that have competed in the FAB-Racing Rookie class the previous season and finished in the top 6 in the Championship will not be allowed to compete again in this class, they must enter the AC40 PRO class. FAB-Racing also reserves the right to require lower placed finishers in the Championship to move up to the AC40 PRO class.

FOR NEW COMPETITORS TO THE SERIES there will be a package deal from Minimoto Racing to include the BLATA RM10S Minimoto together with selected race suit, boots, and gloves. There will be a choice of design and colours for these. As helmets are very individual these can be offered as an addition to the package or left for the competitor to purchase as they decide.

For full details and special prices of the BLATA RM10S Minimoto, with or without the package deal, or the BLATA Engine and Exhaust, contact Ian or Sarah at Minimoto Racing.

Tel: 01666 838600 during normal work hours.

2021 Junior & Senior Minimoto Regulations (cont.)

FAB-Racing Junior AC40 PRO British Championship:

Riders 7 to 13 years (6 years with Rookie Class experience and proven ability)

Air cooled 40cc 2 stroke OR air or oil cooled 90cc 4stroke.

Engines must be from the following list of manufacturers approved for 2021 by FAB-Racing:

CS Racing - Blata – BZM – GHR - IAME - Polini - Team Evolution. The engines and all engine parts used must be as commercially available to the public and be fitted with an “M4 Minimoto” 14mm exhaust restrictor plate with a FAB-Racing security seal.

The exhaust must be steel and a commercially available standard Minimoto type. Maximum carb size 15mm.

Spark plugs must be resistor type – eg NGK BR9EG, BR10EIX etc, the R denoting the resistor.

Riders in this class that do not have an LC40 Minimoto can enter the class as an additional class on their AC40 PRO Class Minimoto with or without the restrictor removed. There would be no separation of the 2 types in the results.

FAB-Racing Junior LC40 Elite British Championship: (7 years - 13 years)

Air or Water cooled 40cc 2 stroke OR air or oil cooled 90cc 4stroke.

Engines must be from the following list of manufacturers approved for 2021 by FAB-Racing:

CS Racing - Blata – BZM – GHR - IAME - Polini - Team Evolution. The engines and all engine parts used must be as commercially available to the public.

The exhaust must be steel and a commercially available standard Minimoto type. Maximum carb size 15mm.

Spark plugs must be **resistor type** – eg NGK BR9EG, BR10EIX etc, the R denoting the resistor.

FAB-Racing Senior Minimoto British Championship: (14 years and over)

Air or Water cooled 40cc 2 stroke OR air or oil cooled 90cc 4stroke.

Engines must be from the following list of manufacturers approved for 2021 by FAB-Racing:

Blata – BZM – CS - IAME - Polini - Team Evolution. The engines and all engine parts used must be as commercially available to the public.

The exhaust must be steel and a commercially available standard Minimoto type.

Maximum carb size for CS Racing and IAME to 15mm. All others listed above 18mm.

Standard coil ignition. Programmable electronic ignition not permitted. Spark plugs must be resistor type – eg NGK BR9EG, BR10EIX etc, the R denoting the resistor.

Note: GHR motors are not permitted for the 2021 season. One designated rider will be permitted to use this motor for evaluation as suitability for use in the 2021 season. FAB-Racing will decide on any possible handicap (if required) to be given to that rider.

IT IS VERY IMPORTANT THAT YOU READ AND TAKE NOTE OF THE GENERAL RULES AND REGULATIONS THAT OPERATE IN CONJUNCTION WITH THESE CLASS REGULATIONS
